Medical Scribe

Dear Hiring Agency,

Tien To referred me to the part-time medical scribe position because I am interested in exploring and pursuing a medical career. The medical scribe position provides the opportunity to gain experience in that area. I want to connect with medical doctors and observe their day-to-day tasks while at the same time contributing whatever I can to bring the best patient care. I look forward to hearing from you and hope to make a contribution in the healthcare field.

Sincerely,

Brian D. Nguyen
